Acknowledgements

This research project and the 2005 Moorea Spring Study Tour were made possible with the generous financial support of the Beatrix Farrand Fund for Innovation in Landscape Architecture Education, the Department of Landscape Architecture and Environmental Planning, and the University of California’s Pacific Rim Research Program.

Sincere thanks to Executive Director Neil Davies, Valentine Brotherson and the staff at the UC Berkeley Richard Gump South Pacific Biological Station for facilitating our class while in French Polynesia and organizing the Conference on Land Use Planning and Marine Conservation. We are deeply appreciative of their warmth, hospitality and countless hours in making our visits successful and unique experiences.

We could not have carried out our research without the data and materials provided by the French Polynesian Department of Urbanism and Moorea’s Mayoral Office. We especially thank Annie Aubanel for patiently fielding all of our questions and facilitating meetings with Eric Poirion and Didier Lequeux. Thanks also to Larrissa Lau and Moorea’s Mayor, Monsieur Tenitipaiau Maah for taking the time to personally meet with us on more than one occasion and observe the final presentations of our results.

To all of our guest speakers and contacts who generously contributed information and expertise on environmental issues in Moorea, the jurors who gave their time to review of the class presentations in the Environmental Planning Studios, other professors in the College of Environmental Design who allowed Moorea to be the focus of their coursework, and all who participated in the Conference on Land Use Planning and Marine Conservation, thank you for challenging us and sharing your insights: Hinano Murphy, Director of the Atitia Center; Dominick Letourno from Pihena; Nicolas Bruno from VTEA; Yannick Chancerelle, Scientific Manager of C.R.I.O.B.E; Franklin H. Barnwell from the Department of Ecology, Evolution, and Behavior at University of Minnesota; Sean Askay from UC Riverside; Michael Murray from CSUN’s Department of Biology; George Waters of Renaissance Golf Design; Michel Guerin from the French Polynesian Bureau of Tourism; Harry Scheiber and David Caron from the Boalt Hall School of Law; Vince Resh and George Roderick from the College of Natural Resources; John Harte from the Energy and Resources Group; Mary Gleason from the Nature Conservancy; Randy Hester, Matt Kondolf, Louise Mozingo, and John Radke from the Department of Landscape Architecture and Environmental Planning and Ananya Roy from the Department of City and Regional Planning.

Thank you to all the students who participated in the Environmental Planning studios, the study tour and the Conference in Moorea for all your enthusiasm and hard work in furthering environmental planning research on Moorea. It was a pleasure to experience your discovery of the island and learn from your perspectives.

Finally, we are grateful to Luis Barranco and Hadjah Rivera for their efforts and patience in assisting with the 2005 Moorea Spring Study Tour logistics and to Department Chair Peter Bosselmann who was very supportive of the project and the creation of this report.

Shay Boutillier, Graduate Student Researcher
Tim Duane, Associate Professor and Principal Investigator
Participants of the 2005 Moorea Study Tour:

Prof. Tim Duane
Shay Boutillier (GSR)
Shannah Anderson
Marcus Clarke
Z Clayton-Niederman
Cody Duane-McGlashan
Frank Gallivan
Alicia Gilbreath
Tanya Higgins
Jessie Levine
Anchi Mei
Laura Pagano
Pedro Peterson
Jesse Roseman
Dave Shaw
Rosalyn Stewart
Tim Strand

Other LAEP 205 Environmental Planning Studio Participants:

Jubilee Daniels
Duane DeWitt
Amanda Eppley
Kathryn Gaffney
Christie Herron
Rosey Jencks
Kirk Klausmeyer
Lorraine Maldague
Peter Miller
Kate Tollefson
Jan True Ting
Puiman Wong
Eric Zhang

The production of this report was made possible with funding from the Geraldine Knight Scott Landscape Architecture History Fund. Content was compiled by Shay Boutillier and edited by Shannah Anderson and Z Clayton-Niederman. It was designed by Annabelle Ison of Ison Design and printed by Alonzo Printing. The project was supervised by Professor Tim Duane.
